Living History Associaton

The goal of our association is to reenact the armed forces who participated in World War 2.

This includes German Heer infantry troops, Fallschirmjäger, Luftwaffe Felddivision and American engineers and infantry.

We want to emphasise that the German armed

forces are being reenacted from a historical point of view. Frontleven guards conscientiously that neo-nazism, rascism or anti-semitism are kept out of our association and our hobby.

Our members pass through a strict selection before they can join our association.

What is re-enactment?

The most of us got in touch with history in dull class rooms and in boring books. By re-enactment the audience can get acquainted with World War 2 history. This happens by means of original and reproduction items and uniforms. These things are used and are worn by our members and this in a setting of an army camp.

In short, you visit a living museum!

In some cases you can witness a battle. In so doing, you can get in touch of the used tactics of carbines, machine guns, anti tank weapons, a 80mm mortar and even a really flak/anti-tank canon. These demonstrations are

given by using fire-works. This can only take place when all the safety regulations are fulfilled. If you wish to invite Frontleven 40-45 for a World War 2 event, don't hesitate to ask information. Do you know we grant our collaboration to movie and TV-productions and plays?

We do this by renting uniforms, fully equipt extras and equipment. We give also historical advice, even on scene.
